and satisfy all requirements applicable to the business.

- Support continual improvement of the business and the management system.
- Maximise customer satisfaction
- Sustain employment for existing and future staff, providing a good place to work and developing staff to ensure that the Company has the necessary skills to meet all current and future challenges. This demonstrates to our staff that they are recognised as key to the company's overall performance.
- Strengthen partnerships with our funders, suppliers, stakeholders and customers to ensure optimum business performance. We ensure that our suppliers and partners used in the delivery of our services also comply with our quality philosophy and company policies.
- Maintain our reputation for honesty, integrity and transparency.

To support our commitments Thrift Energy Group has established an Integrated Quality, Environmental and Health & Safety Management System.

To ensure the success of both the organisation and the management system Thrift Energy Group will:

- Provide sufficient resources to ensure that the Group can operate to the Integrated Management System.
- Ensure that our Integrated Management System provides a framework for the establishment, management and review of the Group's strategic objectives.
- Ensure that all company policies & procedures have the full support of senior management.

Mr Derek Campbell
Managing Director
