Biomass, Air and Ground Source Heat Generation	Energy Efficient Glazing and Doors
Renovation and Construction Projects	

Thrift Energy Group is committed to managing our operations in ways that:

- Assess the environmental effects of its policies and operations with the objectives of ensuring protection of the environment, preventing pollution, reducing environmental impact and where possible providing environmental benefits.
- Improve the energy efficiency of existing buildings throughout the UK.
- Minimise use of resources.
- Recycle as much waste as we can cost effectively, reducing the amount of waste sent to landfill.
- Operate an integrated management system across all business functions in order to attain the highest possible standards of Environmental performance.
- Fulfil its compliance obligations applicable to the business, complying with the spirit as well as the letter of environmental legislation, Codes of Practice and other requirements whilst maintaining open communication with all regulatory authorities.
- Seek to influence clients and suppliers of materials and services to adopt policies which are consistent with those of the Company.
- Continually evaluate our suppliers' environmental policies and performance.
- Evaluate new techniques that will provide benefit to the environment.
- Educate and motivate our workforce in order to minimise environmental impact of daily work.
- Support continual improvement of the management system and enhance environmental performance of the business.

To support our commitments Thrift Energy Group has established an Integrated Quality, Environmental and Health & Safety Management System.

To ensure the success of both the organisation and the management system Thrift Energy Group will:

- Adhere to the Green Deal golden rule
The expected energy savings, measured in cost, must be equal to or greater than the costs of the installation over the life span of the product.
- Provide sufficient resources to ensure that the Group can operate to the Integrated Management System.
- Ensure that our Integrated Management System provides a framework for the establishment, management and review of the Group's environmental objectives.
- Ensure that all company policies & procedures have the full support of senior management.

Mr Derek Campbell
Managing Director
